

NEWS OF THE MORNING.

Gen. Jo Lane and a number of other prominent Oregon Democrats have issued an address to the members of their party in Oregon, dwelling upon the importance of upholding States' Rights as against the Republican tendencies to centralization and monarchy, and advocating governmental reform.

The President has nominated James B. Lowell of Massachusetts as Envoy Extraordinary and Minister Plenipotentiary to England; John W. Foster of Indiana as Minister to Russia; Lucius Fairchild of Wisconsin Minister to Spain; Philip H. Morgan of Louisiana Minister to Mexico and Eli H. Murray of Kentucky as Governor of Utah.

A meeting of working men and women was held Sunday afternoon in Charter Oak Hall, San Francisco, for the purpose of discussing the condition of the laborers and craftsmen of the city, with a view of devising, if possible, measures for the relief of unemployed and destitute men and women. It appeared from the verbal reports made by representatives of several trades unions and labor organizations, who were in attendance, that business was very dull, and the present outlook in San Francisco for laborers and mechanics is not bright; that very many of the last-named classes were idle and unable to obtain employment at any price. Several expedients for relief—such as the establishment of free soup houses, the formation of protective society, etc.—were suggested, but failed to result in any definite action.

The steamer City of Peking has just arrived from Hongkong and Yokohama, and has been sent to quarantine, having two cases of small-pox on board. A special meeting of the Board of Health has been called, and until their decision is reached no communication whatever will be permitted between the ship, and shore.

A resolution was introduced in the House yesterday by Townsend of Illinois proposing a Constitutional amendment in regard to the election of President and Vice President, providing for their election by a majority of the votes of the people, and for the abolition of the electoral college.

A special to the Cincinnati Times from Yellow Springs, Green county, Ohio, says: Three terrible explosions occurred this morning at the Miami powder mills, three miles south of here. Three mills were destroyed and two men killed.

Negroes are arriving in Kansas from Texas in great numbers. The mild weather alone prevents suffering, as they are mostly destitute and house-room is very scarce.

A special to the Alexandria (Virginia) Gazette states that the negro Jordan, who ran off with a white girl from Fannin county some time ago and was arrested in Maryland and brought to Warren-ton Wednesday last, was taken from jail at that place at 2 o'clock yesterday morning and hanged.

The year 1879 was one of unprecedented agricultural prosperity. It is shown that the cotton crop is larger, by half a million bales, than ever before; the tobacco crop is 12,000,000 pounds greater, and the sugar crop 200,000 hogsheads above all previous yields. The excess of wheat is 20,000,000 bushels, and of corn, 100,000,000 bushels.

The House Committee on Military Affairs, has agreed upon a report to accompany Representative Bragg's bill for the restoration of General Fitz John Porter. It provides for his restoration to service with the rank of Colonel, and awards him \$75,000 in lieu of all back pay to which he may be entitled.

Law and order has triumphed in Maine. Davis the real choice of the people for Governor has been elected and installed by the Legislature, and his authority is recognized and respected by all except a few mad Fusionists.

It being settled that the Bodie road will be built, it behooves us to look about and ascertain what effect it will have upon Lyon county. We are of the opinion that it will be very beneficial. The building of the road will materially increase the value of the taxable property—it will, in fact, double it in a few years, it will direct the attention of capitalists to the vast mineral wealth of the mountains overlooking Mason Valley; it will likewise add to the impetus with which that rich agricultural section is being developed. This is as far as Lyon county is concerned. With the advantages to accrue to Esmeralda and other southern counties we have nothing to do.—[Lyon County Times.

FOX SALE.—The best bear made in the county is made in Crystal Peak. Leave your orders at J. J. Becker's, where you will be supplied by H. F. Rohrs, agent.

For a good timepiece go to Goeggel.

THE EQUALIZATION BILL SQUABBLE.

In advising the Austin Reveille not to allow a correspondent to mislead its readers, the Eureka Sentinel, usually fair on kindred propositions, goes out of its way, either in an attempt to make political capital or to satisfy some private prejudice, to mislead its readers, by stating that the real test vote before the last Senate, on the Board of Equalization bill was on the amendment offered by Senator King that the expenses of the Board should not exceed the sum appropriated. The amount appropriated was \$10,000, and on the theory advanced by the Senator from Eureka if \$30,000 had been appropriated, and King's amendment even then proposed, the principle contained in the bill would have been decided. Cassidy, you know better. The real test was on the striking out of the word "one" and inserting the word "two," and every criticism upon that vote is perfectly legitimate.

NO CHINESE.

The Suto Independent says: "It is reported, and on pretty good authority, that the Virginia and Truckee Railroad Company will employ only Chinamen to do the laboring work on their branch road to Bodie."

To which the Virginia Chronicle responds: "It is not at all likely that Chinamen will be employed. Chinamen can't vote."

And now the JOURNAL adds that the last Legislature passed a law prohibiting the employment of Chinese by corporations and does not believe the Bodie road will violate that law, especially as white men can be procured to work for \$1 50 per day, as instance the Nevada Central

GOLDEN GATE PARK.

San Francisco has many places of interest, but the Golden Gate park is certainly the most attractive resort, and in the years to come it will be the means of not only giving that city a national reputation, but it will prove an attraction sufficient to entice visitors the same as Niagara, the Yellowstone, Long Branch and other places now do. This park should be San Francisco's great pride, and the taxpayers provide for a reasonable sum to be expended annually and in the time to come the city should condemn all the property in a direct line from Market and Fell streets, so that there may be a grand entrance direct to the park. The Commissioners have performed a large amount of good work in the past two years. In their fifth biennial report, just submitted, is reported construction during that time of a section of the southern drive, and of 5,500 feet of walks, and that the total length of drives and bridle paths now done is 48,682 feet, and of walks 10,000 feet. A florist's cottage was built, a propagating house finished, and a large area graded into lawns and sown with selected grasses. All told 70,765 trees and shrubs have been sown in the eastern section and 85,202 in the western. Of flowering plants 45,000 have been raised and set out in the eastern district. The main improvement since last report is the conservatory 250 feet long, oriental in style and highly ornamental. It covers an area of 1,500 feet, and thirty-five tons of glass and three of putty were used in it. The total receipts for 1877-8 were \$77,745 93, all of which was expended but \$8,048 28. The receipts for 1878-9 were \$63,531 43, all of which was expended. The chief expenditures were \$7,301 55 for the construction of drives, \$10,247 97 for their repair and maintenance, \$5,448 95 for the grading and preparation of grounds, \$1,081 80 for drainage, \$2,119 40 repair of buildings, \$11,115 15 for maintenance of tree plantation, \$4,659 45 for nursery attendance, \$12,977 for guards; \$3,966 for hay and grain, and \$30,770 55 in the construction of the conservatory. In the two years there were 1,472,642 visits to the park.

"THE CHINESE MUST GO."

The House Committee on Education and Labor will report favorably on Representative Good's bill prohibiting Chinese immigration, striking out the section however, which provides for the abrogation of Articles 5 and 6 of the Burlingame treaty. The bill prohibits carrying more than fifteen Chinese passengers on any one vessel, but excepts from prohibition Chinese officials. The California delegation has resolved to push action on the Chinese Immigration bill and run the chances of another Presidential veto. "Some members of the delegation have had interviews with the President about the measure, but he declines to indicate what he will do if the bill is presented to him for his signature. On account of the prolonged absence of Minister Seward from his post during the past year. Secretary Evarts says he has been unable to consummate negotiations for the modification of our treaty with China.

Parnell is to speak in the House of Representatives on the 2d of February.

OUR INSANE.

The Battle Mountain Messenger correctly states the whole proposition concerning our insane, and we reproduce its article in full, asking a careful perusal for it from every taxpayer:

It now takes nearly \$55,000 per year to pay for the keeping of the insane of Nevada at the private asylum of Langdon & Clark, at Stockton, Cal., and by the looks of things, the next Legislature will have to pass a deficiency bill of some \$30,000, as the last Legislature only appropriated \$90,000 for the two years. There are 139 patients in the asylum at the present time and more are being added to the number every month. It seems strange that our legislators can never perceive the advantages to accrue by having

AN INSANE ASYLUM

In our own State, where the poor unfortunate could be cared for near at home, and where their friends and relatives could visit them without going to the expense of a trip to California. We had an idea that the State Prison grounds at Reno were going to be utilized for the purpose of building an asylum there to remedy this great evil; for

IT IS AN EVIL.

To send money out of our State when it could be used to better advantage at home. Would it not be more satisfactory to the taxpayers of the State of Nevada if they knew that the money they paid into the State Treasury would be expended in the State? Would not the majority of them be willing to see the insane cared for at home even if it did cost from \$1,000 to \$5,000 a year more to keep them there than in another State? Supposing it cost \$55,000 a year to keep them in their present quarters and \$60,000 to keep them in Nevada, does it not stand to reason that the taxpayers would carefully pay the difference if they could visit the buildings and inmates and see where and how their money had been expended. As it is now the State of Nevada is paying over \$50,000 per annum to Messrs. Langdon & Clark, of Stockton, for keeping their insane, and at the end of two or five years they have nothing to show for all this

MONEY EXPENDED.

Suppose this \$50,000 was used in building an asylum in this State and a like appropriation made for the annual support of the institution, would not the State have something to show for it in a few years? Take for an example our sister State; if it were economy to contract out the care and maintenance of insane patients why did California go to the expense of building and furnishing a branch asylum at Napa, instead of turning their insane, that could not be accommodated in their asylum at Stockton, to Messrs. Langdon & Clark? Because they had already tried one institution and knew full well that the State was capable of treating and caring for its insane as were private individuals. Take into consideration the

AMOUNT OF MONEY

Expended in conveying each insane person to California and you will see at a glance that it would go far toward supporting them in a home institution, and at the same time keeping the money and profits among our own people. This is a subject which must be agitated and kept before the people so that at the next election they can send men to the Legislature who all favor the building of an Insane Asylum within our own borders. We notice that the Reno JOURNAL and Austin Reveille have already taken the subject in hand, and we trust that every paper in the State will join issue on this question and perhaps by united action we may be able to bring about a result both advantageous to the State as well as a benefit to our unfortunate insane.

NATIONAL BANKS.

Senator Jones will deliver a speech at the present session of Congress against the National Bank system. It is well known that the Nevada Senator never speaks until he has thoroughly studied and fully comprehends his subject, and having made finance a study, we may expect to hear one of the most powerful philippic efforts against these national robbers that has been delivered in the halls of the senate for many a long year. For eighteen years these corporations have been receiving from 4% to 6 per cent. from the Government on their circulating notes, secured by United States bonds, and drawing regularly their coupons from this security, and charging interest to their customers on the notes loaned, making a total interest that they receive on every dollar of from 18 to 25 per cent per annum. Of course they want greenbacks called in and cancelled, that they may issue the whole currency circulating medium of the country, that this exorbitant interest may be increased, and that they may have the profit from the wear, loss and destruction of their paper promises to pay, to swell their already plethoric coffers. The Senator has a splendid subject to handle, and will dissect this monster swindle with a master hand.—Bodie News.

Some of our exchanges are urging that candidates for Legislative honors shall be pledged to support a bill for an appropriation to purchase ground and erect buildings suitable for an Insane Asylum. This is not exactly necessary, considering the fact that the last Legislature located the Asylum at Reno, and appropriated money to secure plans and specifications of the building. The ground where it is proposed to locate the Asylum, already belongs to the State. It is only to be hoped that the next Legislature will complete the work so wisely begun April.—Carson Appeal.

EASTWARD, HO!—In the Sierra Nevada, as well as in the Union Consolidated, the north-end ore channel appears to be bulging out to the eastward. On the 2300 level they have run out forty feet in width, which gives fair assays. There is probably ore still to the eastward. All these eastern deposits promise well for the levels below. On the 2400 level they will most likely be found to be united. Little is yet known of this eastern country. Each advance into it seems to bring to light something of interest and value.—[Enterprise.

THE MINERAL SOAP MANUFACTORY.

The "Local" of the Post visited the newly-established manufactory of Elko mineral soap, at the White Sulphur Springs, last Monday, where he found all the operations connected with the manufacture going forward smoothly and successfully. The machinery in present use consists of one six-horse power engine, an amalgamating pan and a mill for pulverizing the ore from the mine. The pan is of sufficient capacity to hold about 1,000 pounds of soap; it is provided with false bottom and sides, between which and the pan proper steam freely circulates, thus thoroughly cooking the mass of soap material, while the millers, which are kept constantly moving, insure a perfectly even mixture. At present the company is prepared to run off from a ton and a half to two tons of soap per day, which is not adequate to supply the demand; but the capacity of the works will be increased within a reasonable length of time. The Elko Mining & Soap Deposit Company possesses advantage over all other manufacturers. It owns its mine, from which is taken the material that forms the base of the soap. It owns living springs of hot water (166 degrees Fahrenheit), possessing peculiar saponaceous and sanitary properties. It has a commodious building thirty by sixty feet, which is ample for its operations, with every facility for producing an article of soap which cannot be equaled by any known process of manufacture. Added to all these, the company employs an experienced manufacturer, who possesses a thorough knowledge of analytical chemistry, by which he is enabled to graduate the quantity of material used in the manufacture of the various grades of soap. No deleterious matter enters into the composition of this mineral soap, theoreic acid being supplied by palm or olive oil, instead of animal grease or any fatty substance tried out of filthy refuse matter.

We shall watch with interest the company's future operations and give the result to the readers of the Post from time to time, believing, as we do, that the manufacture of mineral soap will eventually become a leading and remunerative industry of our town.—[Elko Post.

Nichols's Infallible Injection.

Guaranteed to cure promptly and permanently every case of Gonorrhea, Gleet and Whites, no matter of how long standing, if directions are followed. Internal medicine not recommended or necessary. A cure guaranteed or money refunded. For sale by Fingier & Queen Druggists. West side Virginia street. 6m-dw

For first-class imported cigars, two for 25 cents, call at John F. Myers' drug store, two doors west of the Postoffice.

IMPORTANT LETTER

to a Distinguished Physician.

"I have long been troubled more suffering of a kind that is breaking up the constitution. I have tried the usual remedies, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health. I have been troubled for many years, and I have tried every remedy, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health. I have been troubled for many years, and I have tried every remedy, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health."

GEO. BRARD, M. D. NORBOTT BLOOM, SO. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

May safely claim to be one of the few popular remedies receiving the approval of medical science, and which is not only a most valuable remedy, but it is also a most valuable remedy. It has cured me of my disease, and I am now in perfect health. I have been troubled for many years, and I have tried every remedy, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health."

UNIVERSAL SATISFACTION.

"GENTLEMEN, We have sold SANFORD'S RADICAL CURE for many years, and we have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health. I have been troubled for many years, and I have tried every remedy, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health."

Each package contains Dr. Sanford's Improved Inhalant Tube, and full directions for use in all cases. Price, \$1.00. For sale by all wholesale and retail druggists and chemists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

"COLLINS' VOLTAIC PLASTER

A Electro-Galvanic Battery combined with a highly medicated strengthening plaster, forming the best Plaster for rheumatism and other ailments of the World of Medicine.

ELECTRICITY

A grand curative and restorative agent is not to be found in any other medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. The last resort of all physicians in cases of paralysis, and has rescued thousands, apparently dead, from an untimely grave, when no other human aid could have succeeded. This is the leading curative element in this Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. It is a most valuable remedy, and it is also a most valuable remedy. It has cured me of my disease, and I am now in perfect health. I have been troubled for many years, and I have tried every remedy, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health."

TWO IN ONE.

Thus combined we have two grand medical agents in one, which is a most valuable remedy. It has cured me of my disease, and I am now in perfect health. I have been troubled for many years, and I have tried every remedy, but without success. I have heard of your medicine, and I have tried it, and I have found it to be a most valuable remedy. It has cured me of my disease, and I am now in perfect health."

MOUNT ST. MARY'S ACADEMY

Conducted by

SISTERS OF ST. DOMINIC. RENO, NEVADA.

The course of study embraces the various branches of a solid and useful education. The

Scholastic Year is divided into two sessions of five months each, beginning respectively on the first Monday of February, and closing the last of June. Pupils are requested to enter at the opening of the session; but, they will be received at any time during the year, their sessions dating from the time of entrance. Public examinations are held annually. Private Literary and Musical Recitals every month.

TERMS. Invariably Half Yearly in Advance.

Board and Tuition in English branches, Washing and Ironing, Heat and Fuel, Needlework, Dress and Sewing, per term, including Tuition on Piano.....\$180

Vocal Music in Class..... 10

Vocal Music, Private Lessons..... 20

Drawing..... 20

Painting..... 20

French and German, each..... 15

No advance will be made by the Institution for Books, Stationery, Materials for Drawing, Music Work or other incidental expenses of the pupils, unless funds for the purpose are deposited with the Treasurer. This regulation is considered indispensable, and will be in all cases most strictly observed.

Each pupil must be provided with a Toilet Box and all necessary articles for the toilet.

No particular uniform is required, but each pupil must bring four changes of underwear, dark skirt for every day use, and one pair of blankets.

No deduction will be made for the withdrawal of pupils before the expiration of the term unless in case of sickness.

All letters sent or received are subject to the inspection of the Sister Superior.

All trunks, boxes or parcels must be prepaid. For further particulars, address, SISTER SUPERIOR. Reno, December 24th, 1879.

ESTRAY NOTICE

NOTICE IS HEREBY GIVEN, THAT UPON the 10th day of January, 1890, the following stray animals came upon the ranch of the undersigned, about two miles south of Reno, Nevada, on the Reno and Virginia City wagon road, and are now held and kept by the undersigned, as estrays; that the same have been duly reported to the Justice of the Peace of Reno Township, Washoe county, Nevada, and have been appraised by disinterested appraisers, appointed by said Justice of the Peace, to-wit: One stray mare branded with "J. S." on the left shoulder, valued at \$2; one iron gray mare with an old brand of wine cup shape, valued at \$10; also one sorrel horse, yearling colt, with three white feet and white strip in the face, valued at \$10. The owner or owners of said property is or are required to appear and prove his or their ownership, pay all charges and take the same away, within three months from the date hereof, or his or their right and ownership thereto shall be forfeited according to law.
